## SHM SHIPCARE PARTICIPATES IN THE MARITIME INDIA SUMMIT EXHIBITION ON 14<sup>TH</sup> - 16<sup>TH</sup> APRIL, 2016

We are elated to share with you about our recent participation in the Maritime India Summit that was held between April 14-16, 2016 in Mumbai. The theme of the event was to forge mutually beneficial partnerships between the Indian and Global Maritime sector, where we got the opportunity to meet key policy makers and industry experts.

At the event, as indigenous manufacturers and owners of 22 Nos. high speed patrol and security boats, we promulgated our commitment to the Make in India initiative focusing on connecting India through waterways.

We displayed our 15 MTR Security Boat, now chartered with the Mumbai Port Trust, and our EC Approved Inflatable Rescue Boat, SAFIN 420, at the event. The SAFIN 420 boat is the first boat made in India to be certified by the European Marine Equipment Directive.

We were happy to welcome Hon. Prime Minister Narendra Modiji to the event, Hon. Defence Minister Manohar Parikarji, Chief Minister of AP, and senior government officers to our display unit.

Please find some picture highlights of the event in this newsletter.

# CONNECTING INDIA THROUGH WATERWAYS
